# SCHEDULE

## DAY 1: DEGEN DAY

**Opensea called and said they wanted their volume back! This is what we're doing**

**1 degen play -1 ETH Sweep- Every hour -12 hours.**

**There is going to be 1 degen play voted by the active community each hour, once the vote is finalised and the play is released on our closed discord, members would have a 5 minutes space to sweep the floor of that collection. 5 minutes past the call, a huge sweep of 1E**

**Will be made to that collection. By the time the rest of the world finds out about it, we golden folks! That's 1 ETH every fkn hour for 12 hours Non stop! Lets move the market baby!**

## DAY 2: BOOST THE HUSTLERS

**No cap, even with the bear Market there are some projects that are really building and growing. 2 Projects will be chosen and debated upon each hour! All the points will be laid on the table and discussed. There will be a final Winner Decided each hour. Members can then contribute to their project as per their Risk appetite.**
